

DON'T! FEED THE MONSTER

PART DOO

**A MONSTER LURKS...
IN OUR WATERS.**

**WE THOUGHT IT WAS HARMLESS...
WE WERE WRONG!**

**DO YOUR DUTY!
PICK UP
THE DOODIE!**

NITROGEN! PHOSPHORUS! PARASITES!
IT GETS IN THE WATER AND SCARY STUFF HAPPENS!

Every day, more than 13 tons of dog waste does not get properly disposed of in Lee County.
Left to seep into our water, it damages water quality and causes a host of other issues.

DoYourDuty.org

and FertilizeSmart.com are water quality
awareness initiatives of the Lee County
Department of Natural Resources.
